

## Certification Categories Requiring Multiple Examinations

Candidates must pass exams and hold a current certification in the categories listed below, meet applicable requirements for the corresponding certification, and submit the required application along with a \$30 fee for each certification category to the Code Council to receive a certificate. There is no fee for the Master Code Professional or Certified Building Official certificate. The Master Code Professional and Certified Building Official certificates are provided to those who have passed required exams, met applicable requirements, and submitted an application to the Code Council.

The required application for certification categories below can be found on the following page.

\* To obtain the Residential Combination Inspector certification (R5), completion of the four Residential Inspector certifications is required. ICC does not recognize prior inspector certifications issued by any of the model code organizations (MCO) as equivalent to the four ICC residential inspector certifications. The rationale for this decision is that the scope of these prior MCO inspector examinations was very limited in the area of residential inspection. This ICC policy is directed by the ICC Board for International Professional Standards (BIPS).

\*\* The 49 is not an examination, but a combination of passing the 47 examination and meeting other requirements. See the application at [www.iccsafe.org/certification](http://www.iccsafe.org/certification) for more information.

\*\*\* The CBO designation can be achieved in the following ways:

1. Passing the 01 and 02 modules within a three-year period, **or**
2. Passing the 01 module and holding a current C8 designation, **or**
3. Passing the 01 module and holding a current C3 designation.
