

## MAKE YOUR OPINION MATTER – JOIN AN ICC EXAM DEVELOPMENT COMMITTEE

If you've ever been interested in having a say in the development and maintenance of the ICC National Certification exams, now's the time to join.

We have an immediate need for applicants for the following Exam Development Committees [EDCs]:

- Mechanical – responsible for the following exams:
  - Residential Mechanical Inspector
  - Commercial Mechanical Inspector
  - Mechanical Plans Examiner
  
- Coastal – responsible for the following exam:
  - Coastal and Floodplain Construction Inspector
  
- Soils – responsible for the following exam:
  - Soils Special Inspector

EDC members are appointed by the Board for International Professional Standards [BIPS] for three-year terms. Applications are reviewed for experience, education, certifications held, previous committee experience, and geographic location, to ensure our committees are representative of the entire U.S.

Throughout your term, you will be asked to meet via web conference and/or in person up to several times per year, based on the needs of the exam program. Generally, in-person meetings are held no more than once a year for a two- to three-day period, with travel expenses covered by ICC. No testing experience is necessary; ICC will provide comprehensive training initially, and ongoing assistance as needed.

Besides helping ICC to ensure the certification exams are valid, reliable, fair, and defensible, participation in an EDC earns CEU credits toward renewal of your certifications.

If you have additional questions about the duties and responsibilities of an EDC member, please feel free to contact us at 888-422-7233, ext. 5524 or at [certexam@iccsafe.org](mailto:certexam@iccsafe.org).
