

Master Code Professional

The Master Code Professional (MCP) is the highest level of certification the Code Council offers. The Code Council has certified thousands of individuals, but only a small select number have attained this high level of achievement, currently just over 700 individuals. This special group is awarded the gold-colored Code Council lapel pin in addition to the MCP Certificate. To obtain this level of certification requires and demonstrates commitment to the profession, diverse knowledge of codes, and a high level of self-initiative.

Master Code Professionals are typically responsible for all technical and management aspects of code enforcement. Duties include, but are not limited to:

- management of a code enforcement department;
- supervision of building, plumbing, mechanical, electrical, and elevator inspectors and support staff;
- performing or supervising performance of building, electrical, plumbing, and mechanical plan review; and
- when necessary, inspecting or supervising inspection of structures for compliance with the *International Codes®* and referenced standards.

For information on credits required to achieve the MCP, see the following page.
