

Building Technologies Program

The U.S. Department of Energy's Building Technologies Program invites you to attend the following Webinar:

Title: Greensburg: America's Model Green Community in Their Own Words

Date: Monday, November 23, 2009

Time: 1:00-2:30 PM EST

Description: This Webinar will provide an overview of how Greensburg, Kansas, a town that was nearly destroyed by the largest tornado on record, found new life and purpose rebuilding as "America's model green community." Hear from city, government, and business leaders how decisions were made to rebuild with the largest concentration of LEED® certified buildings in the world, and where the town is headed today.

Target Audience: This Webinar is geared toward federal agencies, state energy offices, renewable energy and energy efficiency associations, architects, residential and commercial builders, planning firms, and homeowners.

Presenters:

- **Bob Dixon, Mayor, City of Greensburg**
- **Kelly Estes, President, BTI-Greensburg John Deere Dealership**
- **Darin Headrick, Superintendent, Greensburg Schools District USD 422**
- **Daniel Wallach, Executive Director, Greensburg GreenTown**
