

ICC Code Technology Committee
Areas of Study and Investigation
(Approved by the ICC Board, May/2004)

In accordance with Section 3.1 of CP #5, the ICC Board assigns the areas of study for the Code Technology Committee (CTC) to investigate. Based on the assigned areas of study, the CTC will establish an agenda and further define the effort.

CARBON MONOXIDE DETECTORS. Code changes submitted on the subject of carbon monoxide detectors received considered debate in the 2003/2004 Code Development Cycle. Some of the changes were approved by the IRC B/E committee, with assembly motions subsequently passing to disapprove the changes. As a result, the IRC B/E committee passed a motion for a committee to be established to study this issue.
