Notes:

- Be sure to review the document entitled “2015/2016/2017 Code Committee Responsibilities” which will be posted. This identifies responsibilities which are different than Group A, B and C codes and committees which may impact the applicable code change cycle and resulting code change deadline. As an example, throughout Chapter 9 of the IBC (IBC- Fire Safety, a Group A code committee), there are numerous sections which include a “[F]” which indicates that the provisions of the section are maintained by the IFC code committee (a Group B code committee). Similarly, there are numerous sections in the IEBC which include a “[B]”. These are structural provisions which will be heard in Group B by the IBC – Structural committee while the non structural provisions will be maintained in the 2015 Group A Cycle. This is also indicated in the Code Committee Responsibilities document.
- Proposed changes to the ICC Performance Code will be heard by the Code Development Committee noted in brackets [] in the text of the code.
- Definitions. Be sure to review the brackets in the code in Chapter 2 of the applicable code in conjunction with the Code Development Responsibilities document noted above to determine which Code Development Committee will consider proposed changes to definitions.
