

Fostering Water Conservation and Efficiency in Our Communities

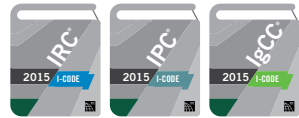

100 YEARS
LEGACY IN BUILT ENVIRONMENT

WHAT WE'RE DOING

CODES – Water Conservation and efficiency are built into our codes.

www.iccsafe.org/irc
www.iccsafe.org/ipc
www.iccsafe.org/igcc

STANDARDS – Conservation begins at home and goes beyond and our standards cover all aspects from landscape irrigation to rainwater harvesting.

www.iccsafe.org/rain
www.iccsafe.org/landscape

RATINGS – Helping home owners by partnering with RESNET to provide Water Efficiency Rating indexes so homeowners know how water wise their homes are.

TRAINING – Providing training to building professionals to implement water conservation and efficiency best practices.

WHAT YOU CAN DO

ADOPT – Ensure your communities are using the latest codes. Visit www.iccsafe.org/ordinances for sample ordinances.

PARTICIPATE – Get involved in the code development process! It's easy and open to all via our cdpaccess.com site.

PROMOTE – Visit www.iccsafe.org/water for all the latest information and share it with your colleagues.

CONSERVE – Be a leader in this effort by ensuring your own home is built using the latest codes and efficiency provisions. See what codes are in effect in your community at www.iccsafe.org/adoptions.
