

2012 International Property Maintenance Code Errata

(Portions of text and tables not shown are unaffected by the errata)

4TH PRINTING (Posted: 11-11-2013)

CHAPTER 3 GENERAL REQUIREMENTS

306.1.1 Unsafe conditions. Where any of the following conditions cause the component or system to be beyond its limit state, the component or system shall be determined as unsafe and shall be repaired or replaced to comply with the *International Building Code* or the *International Existing Building Code* as required for existing buildings:

(No change to items 1 through 6)
