

INTERNATIONAL CODE COUNCIL®

PMG PRODUCT CATALOG

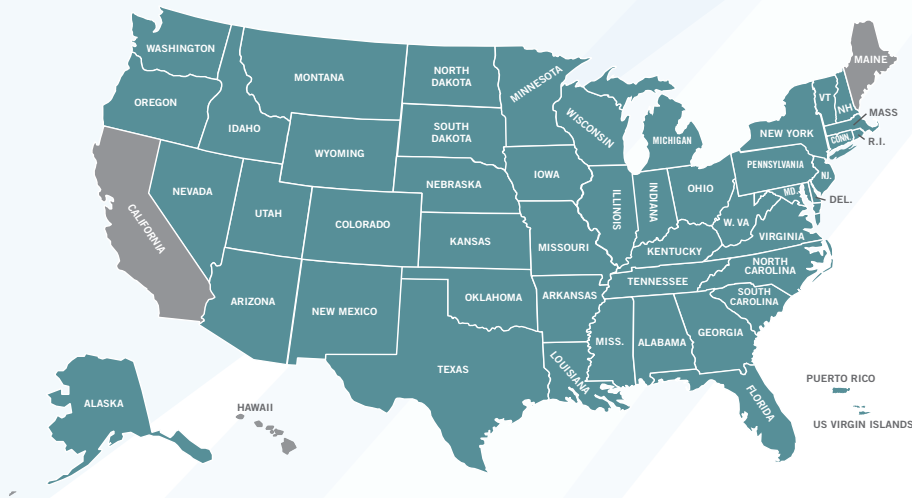

Comprehensive, coordinated, and contemporary codes that meet the needs of the plumbing, mechanical and fuel gas industries.

shop.iccsafe.org

ICC's family of coordinated International Codes® (I-Codes®) is used by communities nationwide to protect health, safety and welfare within buildings. Communities choose I-Codes because they know ICC offers a superior family of codes, developed through a fair and transparent consensus process. The I-Codes address the building industry's needs for comprehensive and contemporary codes that protect the public while supporting innovation and affordability.

One or more of ICC's Plumbing, Mechanical or Fuel Gas codes is in use or adopted at the state and/or local level in 47 states, the District of Columbia, Puerto Rico and the U.S. Virgin Islands.

2018 International Plumbing Code® (IPC®)

The IPC provides minimum regulations for plumbing facilities in terms of both performance and prescriptive objectives, and provides for the acceptance of new and innovative products, materials, and systems. Important changes in this edition include:

- Updated table for the Minimum Number of Required Plumbing Fixtures.
- Single-user toilet facilities (a room having a single water closet and a single lavatory) are not required to be labeled for use by only a male or female (separated use designations).
- Solar thermal water heating systems need to conform to ICC 900/SRCC 300.
- Well systems are required to comply with standard NGWA-01 where local requirements do not cover subject matter or are lacking in detail on others.

2018 International Mechanical Code® (IMC®)

Establishes minimum regulations for mechanical systems using prescriptive and performance-related provisions. The IMC was developed with broad-based principles that make possible the use of new materials, methods and design. Important changes in the edition include:

- Added coverage of pollution control units.
- A new exception was added to recognize Type I kitchen hoods listed for clearances to combustibles of less than 18 inches.
- Added coverage for a newer type of non-metallic duct, phenolic duct.
- New coverage for high volume large diameter fans (HVLD), also referred to as high volume low speed (HVLS) fans.
- Relaxed requirements for sealing of duct joints and seams for Snap- and Button-lock duct joints located within the thermal envelope.

2018 International Fuel Gas Code® (IFGC®)

Addresses the design and installation of fuel gas systems and gas fired appliances through prescriptive and performance requirements. Key changes include:

- A new Section was added to recognize arc-resistant CSST products.
- The code now allows use of Schedule 10 steel pipe.
- The code now calls for the plastic vent pipe material to be labeled as complying with the standards for the specific pipe material as called out by the manufacturer. As an alternative, the plastic pipe can always be listed to UL1738.
- The code clarifies that appliance shutoff valves located behind movable appliances, such as ranges and clothes dryers, are considered to be provided with the required access.
- The clearances between direct-vent appliance vent terminals and openings in the building exterior that could allow combustion products to enter the building have been revised.

2018 International Swimming Pool and Spa Code® (ISPSC®)

The only comprehensive swimming pool code coordinated with the current requirements in the I-Codes and APSP standards. Developed with the Association of Pool & Spa Professionals (APSP), the ISPSC will establish minimum regulations for public and residential pools, spas, and hot tubs using prescriptive and performance-related provisions. The ISPSC integrates seamlessly with the family of I-Codes and contains requirements that meet or exceed the Virginia Graeme Baker Act. The ISPSC also contains APSP-7 Standard for Suction Entrapment Avoidance. Important changes in the ISPSC include:

- Hot water storage tanks are now required to be listed and labeled to a standard.
- New sections were introduced into the code to cover solar thermal water heating systems. Installation requirements refer to the IMC.

2018 International Solar Energy Provisions™ (ISEP™)

Contains all I-Code and NEC solar energy provisions plus key SRCC standards and more!

The ISEP meets the industry's need for a resource that contains the complete solar energy-related provisions from the 2018 International Codes and NFPA 70: 2017 NEC® *National Electrical Code*, and selected standards in one document. The ISEP is organized such that it provides the best and most comprehensive tool for the design, installation and administration of both solar thermal (or solar heating and cooling) and photovoltaic systems.

Two important referenced standards from ICC-Solar Rating & Certification Corporation (ICC-SRCC™) are included:

- ICC 901/SRCC 100-2015: Solar Thermal Collector Standard
- ICC 900/SRCC 300-2015: Solar Thermal System Standard

The 2018 ISEP the single, most comprehensive document for solar energy code provisions and standards in the nation.

SOFT COVER	(4751S18)	54.00	40.50
PDF DOWNLOAD	(8950P668)	51.00	38.25
<i>premiumACCESS</i> 1 YEAR, SINGLE USER*	(8950A750)	38.00	28.50

*ICC's newest code option is the ***premiumACCESS* Recurring Monthly Subscription**, a month-to-month subscription that starts the day you sign up. Your subscription will auto-renew each month and you can cancel anytime. This convenient choice lets you purchase the codes you need for as long as you need them. It also provides a low-cost way to start enjoying the benefits of *premiumACCESS*. Multi-user, 1-year and 3-year subscriptions are also available.

2018 International Code and Commentary

Includes the full text of the I-Code, including tables and figures, followed by corresponding commentary at the end of each section in a single document. The Download versions contain the complete text in PDF format. Search text, figures and tables; or copy and paste small excerpts from code provisions into correspondence or reports using Adobe® Reader®.

- Read expert Commentary printed after each code section.
- Learn to apply the codes effectively.
- Understand the intent of the International Codes® with help from the code publisher.

Turbo Tabs

You'll be surprised how easy it is to quickly find a code section using Turbo Tabs. With the most commonly used sections of the code printed on each Tab, you can flip through the code or Commentary and find frequently used sections fast! The soft cover versions contain clear plastic, self-adhesive tabs with key sections of the codes printed in an easy-to-read format. The loose leaf versions contain full-page inserts with key sections printed on the tabs.

Study Companions

ICC's Study Companions are the ideal way to master the code for everyday application or to prepare for exams. Each comprehensive study guide provides practical learning assignments for independent study. Study Companions can also be used as part of instructor led programs in the workplace, college courses, or vocational training programs.

The Study Companions are organized into study sessions and include learning objectives, key points for review, code text, hundreds of illustrations and commentary applicable to the specific topic. Each study session includes a helpful quiz that allows the learner to measure their level of knowledge. Each Study Companion's answer key lists the code section referenced in each question for further information.

2018 International Residential Code Study Companion

Includes study sessions on the building, mechanical, plumbing, fuel gas and electrical provisions of the 2018 IRC for one- and two-family dwellings.

- 18 study sessions
- 630 total study questions with answer key

Great resource for Certification exams: Residential Building Inspector, Residential Electrical Inspector, Residential Mechanical Inspector, Residential Plumbing Inspector, Residential Plans Examiner, or Property Maintenance and Housing Inspector

FlashCards

These helpful study aids provide code users, students and exam candidates with an effective, time-tested method for study and information retention. FlashCards are powerful learning tools that can help any student at any level.

- Professionally designed
- Easy to read
- Can be used anytime, anywhere
- Low cost, high-value study aids
- Prepared and reviewed by code experts to ensure accuracy and quality

Look no further than ICC-ES PMG® The Leading provider of product evaluations in plumbing, mechanical and fuel gas, with excellent customer service and the highest acceptability by code officials at the price you're looking for.

Benefits of having an ICC-ES PMG Listing

- ICC-ES PMG offers a lower cost for certification than competitors
- Expedited certification for all client listings
- ICC-ES PMG does not conduct warehouse inspections
- ICC-ES PMG does not charge for additional company listings
- ICC-ES will accept test reports from other entities
- No fee for EPA WaterSense listings and lead law listings
- No separate file for NSF 61 listings
- ANSI and SCC Accredited

Helpful Code References

Significant Changes to the International Plumbing Code/International Mechanical Code/International Fuel Gas Code

Key changes are identified then followed by in-depth discussion of how the change affects real-world application. Coverage reflects provisions with special significance, including new and innovative design ideas and technologies, modern materials and methods of construction, and current approaches to safety and stability.

Plumbing Venting: Decoding Chapter 9 of the 2015 IPC

An in-depth illustrated manual by Master Plumber Bob Scott dedicated to the IPC venting methods. This heavily illustrated guide shows correct and incorrect examples of common venting, horizontal and vertical wet-venting, combination waste and vent, circuit venting, single stack venting and more based on the criteria established in chapter 9 of the 2015 IPC. It discusses the nuances of each method in detail and gives many examples of how and where to use each method. A must have guide for any installer, designer or plumbing professional.

DeWALT 2018 Residential Construction Codes: Complete Handbook, Third Edition
Based on the 2018 IRC, this full-color illustrated guide covers the most common code requirements for building one- or two-family dwellings, and presents them to users in an easy to navigate and easy to understand format. Sections cover a wide range of residential construction topics including building, plumbing, mechanical, and electrical installations, with high-dimensional illustrations to help explain code application.

SOFT COVER	(9209S3)	24.95	22.50
------------------	----------	-------	-------

DeWALT Building Code Reference, Fourth Edition (Coming Fall 2018)
References the 2018 IRC as the foundation for learning common code requirements, violations, and installation concerns. The simple, easy-to-understand approach provides illustrations and clear, concise text. Packaged in a conveniently sized, durable format, it will withstand a variety of on-the-job trainings and ultimately the wear and tear of jobsites.

SOFT COVER	(9511S18)	24.95	22.50
------------------	-----------	-------	-------

DeWALT Plumbing Code Reference, Fourth Edition (Coming Fall 2018)
A straightforward, illustrated approach and explains the most important and commonly used provisions in the 2018 IPC and IRC. This valuable reference guide transforms the sometimes complex jargon frequently associated with the code into clear, real-world terms, which simplifies the learning process and provides students with a context for understanding the information covered.

SOFT COVER	(9211S18)	24.95	22.50

DeWALT HVAC Code Reference, Third Edition (Coming Fall 2018)
Get your next HVAC job done right with this helpful reference guide from an industry leader in contractor education. It uses the 2018 IMC and IRC as the foundation for providing readers with the knowledge and skills needed to install or modify HVAC equipment successfully. With 75 pages of illustrated code requirements, violations, and installation concerns, this book covers everything from materials and duct construction to chimneys, vents, grease duct systems, and more. With detailed, full-color illustrations to help readers visualize and apply key concepts, this book is a “must-have” for anyone working on HVAC equipment.

SOFT COVER	(9311S18)	24.95	22.50

CodeNotes™

ICC provides informative code support documents to better serve the needs of plumbing, mechanical and fuel gas professionals. Topics include:

- Firestopping for Plumbing and Piping Systems: 2018 IBC and IPC
- Bonding of Corrugated Stainless Steel Tubing (CSST) Gas Piping System
- Verifying ACCA Manual J® Procedures
- 2015 ISPSC® Residential Swimming Pool and Spa Permit & Plan Guidelines
- Worker Safety on Roofs and Elevated Structures: 2015 IMC
- Pipe Sizing: 2015 IFGC and IRC
- 2015 ISPSC® Permanent Inground Residential Swimming Pool Entry/Exit Requirements
- Velocity Limits in the 2015 ISPSC
- Solar Water Heating Systems: 2015 Solar Energy Provisions
- Backflow Preventers and Protection of Water Supply: 2015 IPC and IRC

CodesNotes quick-reference tools can be downloaded at no cost 24/7 from www.iccsafe.org.

LEARNING center

Training and Education

The Learning Center at ICC has the training opportunities you need to advance your career and earn valuable CEUs!

CLASSROOM Network with your peers and prepare for the exam at an in person Certification Test Academy.

• **P1 Residential Inspector Certification Test Academy**

LIVE WEB SESSION PP1 Residential Inspector Certification Test Academy.

• **International Plumbing Code® Webinar Series:**

- » Admin, Definitions and General Regulations
- » Fixtures, Water Heaters and Water Supply, and Distribution
- » Sanitary Drainage and Indirect/Special Waste
- » Vents and Traps, Inceptors and Separators
- » Storm Drainage, Special Piping and Storage Systems, Nonpotable Water Systems, and Subsurface Landscape Irrigation Systems

ONLINE Online learning is available 24/7 and features topics such as exam study, code training, management, and leadership.

- **2015 IRC® Online Study Guide for Residential Plumbing Inspector P1**
- **Managing Generation X**
- **Smart Management: Methods for Motivating and Mentoring Your Team**

HIRE ICC TO TEACH ICC will bring the training to you. We can customize the training to meet the needs of your organization.

Subject matter examples include:

- **IPC® Design, Installation and Inspection Principles**
- **IMC® Design, Installation and Inspection Principles**
- **IFGC® Design Installation and Inspection Principles**

Check out our Class Schedule at learn.iccsafe.org today or call **888-422-7233, x33821** for more information!

STANDARDS

■ LIST PRICE ■ MEMBER PRICE

Standards

ASABE/ICC 802-2014: Landscape Irrigation Sprinkler and Emitter Standard

This ANSI-approved standard from the American Society of Agricultural and Biological Engineers (ASABE) and ICC addresses the design, features, performance and testing of sprinklers, bubblers and emitters used in landscape irrigation systems.

SOFT COVER	(9657S14)	35.00	27.75
PDF DOWNLOAD	(8950P659)	33.00	25.75

CSA B805-18/ICC 805-2018: Rainwater Harvesting Systems

This Standard addresses use of rainwater in non-potable applications (e.g., irrigation, fire protection, toilet flushing, clothes washing, hose bibs, decorative fountains, and vehicle washing) as well potable applications (e.g., human consumption, oral care, food preparation, dishwashing, and bathing). In this standard, "rainwater harvesting" refers to harvesting of either roof runoff or stormwater runoff.

PDF DOWNLOAD	(8950P843)	100.00	80.00
--------------------	------------	--------	-------

ICC 900/SRCC 300-2015: Solar Thermal System Standard

Establishes minimum criteria for the design and installation of solar thermal systems. It describes the requirements and methodology for solar thermal system design and evaluation.

SOFT COVER	(7055S15)	33.00	25.75
PDF DOWNLOAD	(8950P708)	31.00	24.75

ICC 901/SRCC 100-2015: Solar Thermal Collector Standard

This standard establishes minimum criteria for the design, manufacture and testing of solar thermal collectors. It addresses a wide range of solar thermal collectors, including flat panel, evacuated tube, concentrating, integrated storage and unglazed. The standard incorporates the provisions of SRCC Standard 600 to create a single standard addressing the widest possible range of solar thermal collectors.

SOFT COVER	(7056S15)	26.95	21.75
PDF DOWNLOAD	(8950P709)	25.50	20.50

ICC 902/APSP 902/SRCC 400-2017: Solar Pool and Spa Heating System Standard
Establishes minimum criteria for the design and installation of solar water heating systems for pool and spa applications. It addresses both residential and commercial pools and spas, consistent with the requirements of ICC's ISPSC and other relevant APSP/ICC standards for these applications. This standard builds upon ICC 900/SRCC 300 that does not include pool and spa applications, and allows pools and spas to benefit from sustainable heating technologies without sacrificing safety or performance.

ASSESSMENT center

The ICC Assessment Center provides nationally recognized credentials that demonstrate a confirmed commitment to protect public health, safety, and welfare. Raise the professionalism of your department and further your career by pursuing an ICC Certification.

ICC Certifications Offer:

- Nationwide recognition
- Increased earning potential
- Career advancement
- Superior knowledge
- Validation of your expertise
- Personal and professional satisfaction

Exams are developed and maintained to the highest standards, which includes continuous peer review by national committees of experienced, practicing professionals.

Proctored Remote Online Testing Option (PRONTO):

PRONTO provides a convenient testing experience that is accessible 24 hours a day, 7 days a week, 365 days a year. Required hardware/software is minimal – you will need a webcam and microphone, as well as a reasonably recent operating system.

High Demand Exams:

- Residential Plumbing Inspector (exam ID P1)
- Commercial Plumbing Inspector (exam ID P2)
- Plumbing Plans Examiner (exam ID P3)
- Residential Mechanical Inspector (exam ID M1)
- Commercial Mechanical Inspector (exam ID M2)
- Mechanical Plans Examiner (exam ID M3)
- Fuel Gas Inspector/Plans Examiner (exam ID FG)

Checkout all the ICC Assessment Center has to offer at iccsafe.org/certification
