

## Steps to Success

# SOCIAL MEDIA GUIDE

Spread the word about Building Safety Month, the importance of building safety and the role of the code official by engaging with your followers on social media. Make sure you use the official Building Safety Month hashtag #BuildingSafety365 on all your posts to join the global conversation.

### 1. Post regularly.

- a. Best practices are to post to Facebook 1-2 times a day, which leads to more clicks per post. We know this can be difficult for many organizations. Therefore, our suggestion is to post to Facebook at least twice a week.
- b. According to [Track Social](#), you need to tweet enough to get noticed; therefore, the best practices for Twitter are to post 3-5 times a day for the most engagement. Our suggestion: on the weekdays, post one tweet daily.
- c. Best practices are to post to LinkedIn once daily. Our suggestion: post to LinkedIn at least twice a week.
- d. Pro Tip: To optimize your engagement rates, create a Building Safety Month social media plan that intersperses your regular posts with Building Safety Month specific content. This will help to spread the message without oversaturating your followers with one specific type of content.

### 2. Share photos and videos when possible.

- a. Research from the [Social Media Examiner](#) advocates for the use of visuals within social media posts. Visuals including photos, videos, gifs and other interactive content reinforce the message and optimize the engagement and click rate of your posts.
- b. Photos aren't as hard to come by as you might think. Take photos to show the many ways your community ensures building safety. Some potential ideas include photos with your Building Safety Month poster, photos at your event and a photo of the proclamation signing.

### c. Share the Building Safety Month poster.

- i. Example Twitter Post: We are excited to partner with the @IntlCodeCouncil in celebration of the 41st Building Safety Month! Our theme: Prepare, Prevent, Protect. Building Codes Save. Join the celebration and help spread the word. #BuildingSafety365
