

# ICC Multi Hazard Resiliency for Residential Construction Standards Portfolio (IS-MHRRC)

**Posted Date: September 2022**

## **SCOPE:**

This standard committee will have primary responsibility for updating the prescriptive methodologies of resistant design and construction details for building and other structures of wood framed, steel framed, concrete, or masonry construction directed toward ensuring structural integrity. This includes prescriptive details for walls, floors, roofs, foundations, windows, doors, and other applicable components of construction in order to be consistent with industry practices.
