# Group A and Group B Code Development Committee Responsibilities 2024-2026 Code Cycle

Revision 1: 11/20/2023

Note that, for code changes submitted to the 2024 I-Codes for the development of the 2027 Edition of the I-Codes, there will be two groups of code development committees and they will meet in separate years. The groupings are as follows:

Group A Codes (Heard in 2024)	Group B Codes (Heard in 2025)
International Building Code	International Building Code
Committees:	Committees:
IBC-Fire Safety (Chapters: 7- 9, 14, 26)	IBC-General (Chapters: 2-6, 12, 13, 27-34, App. C, D, K)
IBC-Means of Egress (Chapters: 10, 11 and App. E)	IBC-Structural (Chapters: 15-25 and App. F, G, H, I, J, L, M, N)
International Fire Code	Administrative Provisions (Chapter 1 all codes except IRC.
(IFC Committee)	IECC, and IgCC, IBC App. A, B, O, all App. titled "Board of
	Appeals" for all codes, except IRC, IECC, and IgCC,
	designated definitions, and administrative update of
	referenced standards
	(Administrative Code Committee)
International Fuel Gas Code	International Green Construction Code (Chapter 1 and App
(IFGC Committee)	M) (see Note 1)
International Mechanical Code	International Existing Building Code
(IMC Committee)	(IEBC Committee)
International Plumbing Code (IPC Committee)	International Residential Code Committees:
(IFC Committee)	IRC-B (Chapters: 1-10 and App. AA, AB, BA,BB,
	BC, BD, BE, BF, BG, BH, BI, BJ, BK, BL, BM, BN,
	BO)
	(Chapter 11 – see Note 3)
International Private Sewage Disposal Code	International Property Maintenance Code
(IPC Committee)	(IPMC/IZC Committee)
International Residential	International Zoning Code
Code Committee:	(IPMC/IZC Committee)
IRC-M/P (Chapters: 12-33 and App. CA, CB,	
CC, CD, CE, CF, CG, CH)	
International Swimming Pool and Spa Code	
(ISPSC) Committee	
International Wildland-Urban Interface Code	
(IFC Committee)	

### NOTES:

- Chapter 1 of IgCC is the responsibility of the International Green Construction Code Committee in order to provide for coordination with the other administrative provisions in the I-Codes. Additionally, Appendix M included as it is not included in ASHRAE Standard 189.1. Remainder of the code is based on the provisions of ASHRAE Standard 189.1 Standard for the Design of High-Performance Green Buildings, Except Low-Rise Residential Buildings.
- 2. ICC Performance Code (ICC PC): The 2027 edition of the ICC PC will be updated utilizing the ICC standards process. Click link for more information.
- 3. International Energy Conservation Code (IECC) and Chapter 11 of the International Residential Code (IRC): The 2027 edition of the IECC and Chapter 11 of the IRC will be updated utilizing the ICC standards process. Click link for more information.

Some sections of the International Codes have a letter designation in brackets in front of them. For instance, Section 304.3 of the IEBC has a [BS] in front of it, meaning that this section is the responsibility of the IBC-Structural Code Development Committee.

The letter designations in the codes are as follows:

[A]	=	Administrative Code Development Committee
[BF]	=	IBC Fire Safety Code Development Committee
[BG]	=	IBC General Code Development Committee
[BE]	=	IBC Means of Egress Code Development Committee
[BS]	=	IBC Structural Code Development Committee
[E]	=	Energy provisions (See note 3 above)
[EB]	=	IEBC Code Development Committee
[F]	=	IFC Code Development Committee
[FG]	=	IFGC Code Development Committee
[M]	=	IMC Code Development Committee
[P]	=	IPC Code Development Committee
[RB]	=	IRC Building Code Development Committee
[MP]	=	IRC Mechanical and Plumbing Code Development Committee
[SP]	=	ISPSC Code Development Committee

**Note:** There are no bracketed letter designations for IPMC, IZC and IgCC because the respective code committees are not responsible for any code sections outside of those codes.

Code change proposals submitted for such code sections that have a bracketed letter designation in front of them will be heard by the respective committee responsible for such code sections. Because different committees will meet in different years, it is possible that some proposals for a given code will be heard by a committee in a different year than the year in which the primary committee for this code meets. In other words, code changes to Group B code text may be due and heard with Group A codes, and vice versa.

The following is a list of the I-Codes and portions of I-Codes that are the responsibility of either the Group A or Group B Code Development Committees. For each group of code hearings, the codes that are primarily heard in each group are listed first, followed by the portions of codes from the other group that will actually be heard in that group.

For instance, following the example above, on page 12 of this report, the IEBC is a Group B Code; however, a few sections of the IEBC including Section 1502 have a [F] in front of them, meaning that Section is the responsibility of the IFC Code Development Committee. The list therefore shows that these Sections are the responsibility of one of the committees which will conduct its code development hearings during the Group A code development hearings. This means that anyone submitting a code change proposal to IEBC Section 1502 and any other sections in the IEBC or other codes with a [F] in front of them will need to submit those code change proposals by the January 8, 2024 deadline for the Group A code hearings rather than a year later for the Group B code hearings.

Similarly, throughout Chapter 4 of the IBC (IBC- General), which is a Group B chapter, there are numerous sections which include the designation "[F]" which indicates that the

provisions of the section are maintained by the IFC committee, which conducts its code development hearing in Group A. Here again, this means that anyone submitting a code change proposal to the provisions of Chapter 4 of the IBC with a [F] in front of them will need to submit those code change proposals by the January 8, 2024 deadline for the Group A code hearings rather than a year later for the Group B code hearings.

Another example is Section 1502.1 of the IBC (see page 11), which has a [P] in front of it. This means that this section is the responsibility of the IPC Committee. The IPC Committee will conduct its code development hearings during the Group A Code hearings. Chapter 15 of the IBC is a Group B chapter; therefore, anyone desiring to submit a code change proposal to IBC Section 1502.1 will need to submit this proposal on or before the deadline of January 8, 2024, for the Group A code hearings rather than a year later for the Group B code hearings.

Many Group A codes have sections that are the responsibility of one of the Group B code development committees. For instance, each section of Chapter 1 of the IBC, which is a Group A Code, has an [A] in front of it, meaning that section is the responsibility of the Administrative Code Development Committee, which will conduct its code development hearings during the Group B code hearings. Therefore, any code change proposal to Chapter 1 of the IBC, IFC, IFGC, IMC, IPC, IPSDC, ISPSC and IWUIC will not need to be submitted until January 10, 2025, rather than a year before on the deadline for the Group A code hearings. There are a few exceptions to this general rule. Note that on page 12 of this report there are several Chapter 1 IFC sections that are heard by the IFC committee. Code changes to those sections will need to be submitted before the January 8, 2024 deadline.

#### Code Changes Submitted to Create New Sections.

It should be noted that the letter designations in front of the Section are there because the issue or topic of that entire section has been designated to be within the scope of the designated committee. Any code change proposal received on that topic or issue represented in that section will also be assigned to the same committee responsible, regardless of whether the code change proposal is to that same section. For example, the IEBC is a Group B code. However, Section 1507 of the IEBC contains requirements for fire extinguishers and is designated to be heard by the IFC Committee during the Group A portion of the hearings. A code change proposal that proposes a new Section in the IEBC that would also deal with fire extinguishers would also be the responsibility of the IFC committee and will need to be submitted by the deadline for the Group A Codes, January 8, 2024.

#### Updates to Referenced Standards

Updates to editions of standards already referenced in the I-Codes are compiled into a single code change proposal that is the responsibility of the Administrative Code Development Committee, which conducts its code development hearings during the Group B code hearings. Therefore, any updates to referenced standards must be submitted as a code change proposal on or before the Group B deadline of January 10, 2025. As part of this, ICC staff will notify all standards development organizations of a need to update referenced standards approximately 3 months prior to the code change deadline. Note that the updated version of any standard included in this

code change proposal must therefore be completed and available prior to December 1, 2026.	

### Code Development Committee Secretaries

If you have any questions, or need further information, please do not hesitate to contact ICC staff. The staff secretaries for each of the code development committees are as follows:

Group	A Code Committees	Group	B Code Committees
Committee	Staff Secretary	Committee	Staff Secretary
IBC-Egress	Kim Paarlberg	Administrative	Keith Enstrom
IBC-Fire Safety	Samhar Hoz	IBC-General	Quinton Owens / Kim Paarlberg
IFC/IWUIC	Beth Tubbs / Keith Enstrom	IBC-Structural	Lawrence Novak
IFGC	LaToya Carraway	IEBC	Beth Tubbs / Keith Enstrom
IMC	LaToya Carraway	IRC-B	Samhar Hoz / Kim Paarlberg
IPC	Fred Grable	IPMC/IZC	Ed Wirtschoreck
IPSDC	Fred Grable	IgCC	Kris Stenger
IRC-M/P	Plumbing: Fred Grable		
IRC-M/P	Mechanical: LaToya Carraway		
ISPSC	Fred Grable		

LaToya Carraway 888-ICC-SAFE ext 4347 lcarraway@iccsafe.org

Keith Enstrom 888-ICC-SAFE ext 4342 kenstrom@iccsafe.org

Fred Grable 888-ICC-SAFE ext 4359 fgrable@iccsafe.org

Additionally, you may contact Ed Wirtschoreck, Director of Codes at 888-ICC-SAFE ext 4317, email: <a href="mailto:ewirtschoreck@iccsafe.org">ewirtschoreck@iccsafe.org</a>

# **Items Heard During Group A Code Development Hearings**

### I. Group A Codes (due January 8, 2024)

International Building Code - Egress (IBC-E)

(IBC Chapters 10, 11, Appendix E)

International Building Code – Fire Safety (IBC-FS)

(IBC Chapters 7, 8, 9, 14, 26)

International Fire Code (IFC)

International Fuel Gas Code (IFGC)

International Mechanical Code (IMC)

International Plumbing Code (IPC)

International Private Sewage Disposal Code (IPSDC)

International Residential Code – Mechanical

(IRC Chapters 12 - 23, Definitions marked [RM])

International Residential Code - Plumbing

(IRC Chapters 25-33, Appendices CA, CB, CC,

CD, CE, CF, CG, CH, Definitions Marked [RP])

International Swimming Pool and Spa Code International Wildland-Urban Interface Code

## II. Group B Code Changes Heard During Group A Code Development Hearings (due January 8, 2024)

Group A code Development meanings (due January 6, 2024)

# **Items Heard During Group B Code Development Hearings**

### I. Group B Codes (due January 10, 2025)

Admin (Chapter 1 of all Codes (except IECC. IgCC, & IRC), IBC App. A, B, O, all Appendices titled "Board of Appeals" for all codes except IECC, IRC, IgCC, ICCPC, and IZC, and Admin Updates to Referenced Standards in all codes except IgCC)

International Building Code — General (IBC-G) (IBC Chapters 2-6, 12, 27-33, Appendices C, D, K)
International Building Code — Structural (IBC-S)

(IBC Appendices F, G, H, I, J, L, M, N)

International Existing Building Code (IEBC)
International Residential Code-Building

(IRC Chapters 1 – 10, Appendices AA, AB, BA,BB, BC, BD, BE, BF, BG, BH, BI, BJ, BK, BL, BM, BN, BO and Definitions Marked [RB])

International Property Maintenance Code (IPMC)
International Zoning Code (IZC)

# II. Group A Code Changes Heard During 2019 (Group B) Code Hearings (due January 10, 2025) International Building Code (IBC)

(IBC-Fire Safety and –General)

(IDC-I lie Salety and -Selleral)			
Section	Issue	Heard by	
1402.3 (All)	Wind resistance	IBC-S	
1402.9	Flood resistance	IBC-S	
1402.10	Flood resistance for coastal high-hazard areas and coastal A zones	IBC-S
