

Renewable Energy

Credential of Learning Achievement

The Credential of Learning Achievement (CLA) in Renewable Energy Systems is a means for participants to be recognized for their knowledge through a comprehensive video training and successful completion of an assessment. Through achieving this IAEI/ICC Renewable Energy Systems CLA, individuals should be able to apply their knowledge and skills to various renewable energy systems such as Photovoltaic (PV), Energy Storage Systems (ESS) and Wind Electrical Systems (Turbine) for plan review and inspection by regulators as well as for design and installation by other industry professionals such as designers and installers. Upon completion, you will be equipped with a CLA credential that may be relied upon by building and safety industry.

PREREQUISITES

None.

TRAINING

The 4-hour, self-paced Renewable Energy Systems - Requirements for PV, ESS & Turbine training supports this CLA.

EXAM

The exam is 30 questions, based on the required training and references. To pass the exam you must receive a score of 75% or higher. You will have unlimited test retakes and there is no time limit. The test must be taken within a year of purchase of the CLA.

REFERENCES

2020 NEC, 2021 International Residential Code, 2021 International Building Code and the 2021 International Fire Code recommended.

COST

Member and Nonmember \$198.
Prices may change without notice.

RENEWAL

This CLA must be renewed every three years.

Notes about the Renewable Energy Credential of Learning Achievement:

None.
