Welcome to the
2018 Annual Conference
Educational Sessions
Session: Best Practices – Collaboration Between Architects and Building Officials
Best Practices

Collaboration Between Architects and Building Officials
Introductions
Looking Back

- The expertise of licensed architects and engineers is essential (95%)

- Licensed architects should be required to conduct on-site observations (87%)
Have Times Changed?
The Code Official’s Challenge

Lines of communication between the divisions of town government
The Code Official’s Challenge
The Code Official’s Challenge

“Oh no. The building inspector. He's worse than the Pharaoh.”
The Design Professional’s Role & Responsibilities
The Design Professional’s Role & Responsibilities

“We need to avoid any appearance of guilty behavior. Heads, more attention to ethics. Tails, Botox!”
The Contractor’s Perspective
“The architect says you don’t need dimensions on the drawing when you can simply query the computer model.”
Conclusion...

and Next Steps!
Thank You For Attending
