CALGREEN PLANS EXAMINER
CONTENT OUTLINE

EXAM ID: CX
- **50 multiple-choice questions**
- **2-hour time limit**
- **Open book**

01 GENERAL REQUIREMENTS 21%

0101 Terminology 5%
Communicate with others using code definitions, acronyms, and other terminology used in green building methods and applications.

0102 Construction Documents and Code Provisions 13%
Determine that the content of the plans and construction documents and supporting data show compliance with relevant code sections and applicable standards.

0103 Site Development 3%
Verify that the building and site development will comply with the CALGreen code provisions.

02 RESIDENTIAL BUILDING SYSTEMS 35%

0201 Water Efficiency and Conservation 3%
Verify that the water efficiency and conservation materials and methods associated with indoor and outdoor water usage comply with the CALGreen code provisions.

0202 Material Conservation and Resource Efficiency 11%
Verify that the material and resources associated with the building and building site comply with the CALGreen code provisions.

0203 Environmental Quality 18%
Verify that the residential environmental provisions of the CALGreen code are followed.

0204 Energy Efficiency 3%
Determine if required materials and equipment meet or exceed efficiency requirements and are in compliance with the CALGreen code provisions.

03   NONRESIDENTIAL BUILDING SYSTEMS   44%

0301   <u>Water Efficiency and Conservation</u>   4%
Verify that the water efficiency and conservation materials and methods associated with indoor and outdoor water usage comply with the CALGreen code provisions.

0302   <u>Material Conservation and Resource Efficiency</u>   10%
Verify that the material and resources associated with the building and building site comply with the CALGreen code provisions.

0303   <u>Environmental Quality</u>   11%
Verify that the residential environmental provisions of the CALGreen code are followed.

0304   <u>Energy Efficiency</u>   19%
Determine if required materials and equipment meet or exceed efficiency requirements and are in compliance with the CALGreen code provisions.
