

David Molnar

4201 Copley Road, Copley, OH 44321 * (330) 714-0982 * dmolnar1@hotmail.com

Biography

David Molnar is the 2025 President of the Ohio Board of Building Officials serving on the Board of Directors since 2018 in various capacities. While volunteering for the State ICC Chapter, he works for Summit County Building Standards as a Master Plans Examiner reviewing various commercial projects for compliance with Building, Mechanical, Plumbing, Electrical, Energy and Fire Safety Systems. David is also employed part-time by the City of Aurora, OH as their Building Official helping round out the team with his Code expertise and project management skills. Since starting his first public service job in Canton, Ohio over 12 years ago, he has been active with the Five County Building Officials Association, local ICC Chapter, where he served many roles including President for four years providing leadership through some challenging years.

Prior to serving the public on this side of the counter, David Molnar invested 25 years in the Architectural profession designing, consulting and administering projects ranging from simple office alterations to multi-million-dollar mixed use projects. Every project taught David the importance of communication amongst the Team and determining the critical path so issues became opportunities. Becoming a licensed Architect was his goal since the sixth grade and every day he tries to help people by making the built environment as safe as possible. His certifications include Building Official, Master Plans Examiner, Interim Building Inspector, FEMA Disaster Response and Incident Command.

One of David's core passions is sharing his understanding of the Codes and their structure and reinforcing the first thing he was taught about the Code: "This is a tool to answer questions, not to make problems." Serving on the Education Committees for both the local and State boards, has led him to develop and present many classes and mentor others to share their expertise.
