

Statement of candidacy for ICC Board of Directors

Dear ICC Members,

I am seeking re-election to the ICC Board of Directors as an At-Large Director during the 2021 Annual Business Meeting in Pittsburgh. I have served on the Board of Directors since 2017. During my term I have worked diligently to educate myself on the issues to make decisions that best serve the membership along with our organization.

As a current member of the Board of Directors I believe that I have advocated for resources for members and helped to raise their profiles within our industry. I worked to move the organization toward achieving the Vision 2020 Strategic Plan, along with working on the goals of the recently established Vision 2025 Strategic Plan. Also, I have worked to ensure that our organization continues to follow its core mission of creating the best codes, products, and services. Therefore, ensuring that ICC will continue to remain a leader in the building safety industry both nationally and globally.

Before beginning my initial service on the ICC Board of Directors I had previously served on the ICC Foundation Board of Directors and ICC-ES Board of Managers. I have also been involved in various other capacities within our ICC organization for many years including code hearings, exam development committees, and within regional and local chapters activities. I have had the privilege of meeting and working alongside many talented and dedicated individuals and members within our organization during these times.

I believe it is not only important for the membership to continue to find qualified candidates that are willing to serve, but to also find candidates that have a true passion and desire to serve our organization and its members. Our organization has a dynamic and diverse membership from a variety of backgrounds. It is important to first hear and listen to our members and then to understand the perspectives of our organization's members. It is important to understand where the organization has come from, but also critically important to understand and realize where the organization is heading in the future. The long-term sustainability of our organization is important alongside the organizations continued service and dedication to its members.

I have been actively involved in the construction industry in numerous capacities for over 30 years. These experiences along with my time on the Board of Directors have continued to assist me in understanding the various perspectives of the members, chapters, regions, building and fire service, and to understand the ongoing importance of the fiscal responsibilities of our organization for its overall long-term success. I welcome any opportunity to speak with any chapter, region, or member.

You may view my ICC board profile at <https://www.iccsafe.org/about/leadership/david-spencer/>

You may also view my LinkedIn profile at <https://www.linkedin.com/in/david-spencer-cbo-b6655217>

I would consider it an honor to receive the ongoing support of our membership for my re-election in order to continue my dedicated service on the ICC Board of Directors along with continuing to serve the entire membership of our organization.

Respectfully,

David Spencer CBO
