

GG20-14

101.5

Proponent: David Collins, representing AIA (dcollins@preview-group.com)

Revise as follows:

101.5 Intent. This code is intended to safeguard the environment, public health, safety and general welfare through the establishment of requirements to reduce the negative impacts and increase the positive impacts of the built environment on the natural environment and building occupants. ~~This code is not intended to abridge or supersede safety, health or environmental requirements under other applicable codes or ordinances.~~

Reason: The deleted language is redundant as it is identical to a statement in 101.2, General. Also, it is appropriate for an "Intent" section to state the intent of the code, but unnecessary to include a description of what the code is not intended for.

Cost Impact: Will not increase the cost of construction.
