The virtual event will address the most pressing issues and priorities for building safety professionals, such as training the next generation of talent, the impact of COVID-19 on building safety and the economy, adopting virtual capabilities, and an in-depth overview of the upcoming 2021 International Codes (I-Codes). Educational sessions will offer continuing education units (CEUs) to participants who complete them.

Featuring an all-star line-up of speakers, ICC Learn Live will include executives from the Building Officials Institute of New Zealand, the International Accreditation Service (IAS), Saint Lucia Bureau of Standards, and CROSQ. Working hand-in-hand with the Code Council to equip veterans with the tools they need to become experts in the industry, keynote speaker Eric "Doc" Wright, Founder & CEO of Vets2PM, LLC, will discuss his experience as a veteran entering a new career. Following his keynote, a guided virtual networking session will be available for attendees.
