Ken Gear  
Chief Executive Officer  
Leading Builders of America  
1455 Pennsylvania Avenue, NW  
Suite 400  
Washington, DC 20004

Mr. Gear,

On behalf of the International Code Council, I want to thank you and the Leading Builders of America for being involved participants in the code development process. The International Codes rely on the expertise and contributions of individuals and organizations from across the public and private sector. This participation helps to create a set of building safety codes that incorporates the latest advancements in building science and leads to safe, affordable homes and buildings.

Attached is additional documentation on the energy votes for the 2019 Group B code development cycle as you requested in your June 23, 2020, letter to the Code Council. We have also shared this information with the Appeals Board and on our website at <https://www.iccsafe.org/products-and-services/i-codes/code-development/2019-group-b-appeals/>.

Together we are ensuring that we have a strong, transparent code development process that continually improves. We look forward to continuing to working side by side on important issues related to building safety, affordability and the codes.

Sincerely,

A handwritten signature in black ink that reads "Michael J. Pfeiffer". The signature is written in a cursive style.

Michael J. Pfeiffer, PE  
Senior Vice President of Technical Services  
International Code Council
