

**IECC COMMERCIAL COMMITTEE  
FINAL RESULTS OF PUBLIC INPUT PROCESS  
August 25, 2022**

On July 19, 2021, [Energy.cdpACCESS.com](https://energy.cdpACCESS.com) was opened for 2021 Public Input Proposed Code Change submittals for consideration in the update to the 2024 International Energy Conservation Code and Chapter 11 of the International Residential Code. The submittal deadline was October 12, 2021. A total of 450 proposals were received (256 Commercial; 194 Residential). In addition, 17 committee proposals were submitted (7 Commercial; 10 Residential). The 450 proposals were posted on November 22, 2021 and the committee proposals were distributed following development.

Following the posting/distribution of the proposals, the IECC – C Subcommittees were created and approved by the Consensus Committee. The Subcommittees then initiated their review of the proposals that fell under their scope, resulting in Subcommittee recommendations being forwarded to the Consensus Committee for review and action. All Subcommittee and Consensus Committee meetings were open meetings. The IECC – C Consensus Committee finished their review and action on the submitted proposals at their June 22, 2022 meeting.

Following the last meeting of the Consensus Committee, the Committee Action Report (CAR)/ballot process for all the code changes approved by the committee was initiated on July 1<sup>st</sup>. The ballot process concluded on August 16<sup>th</sup>.

The Final Result of the ballot process was the approval of all balloted code changes by a 2/3 vote in accordance with Section 9.4 of the ICC Consensus Procedures.

The approved code changes will be incorporated into IECC-C Public Comment Draft #1 and posted for comment (code changes). Posting date tentatively scheduled for Tuesday, September 6, 2022 and will be open for code changes for 45 days with a tentative deadline of Friday, October 21, 2022.
