Keith Enstrom at: kenstrom@iccsafe.org

Hotel & Airport logistics: see file "IBHS Research Center Logistics"

The purpose of this standard is to specify enhanced prescriptive methodologies of wildfire resistant design and construction details for buildings and other structures of wood framed, steel framed, concrete, or masonry construction sited in wildfire hazardous areas. This standard provides prescriptive details for walls, floors, roofs, foundations, windows, doors, and other applicable components of construction.

An ICC webpage dedicated for posting committee related agendas, meeting minutes, meeting materials and all other documents is available to the committee and the public.
