County of Marin

TONY CRETER, Historian
County of Alpine

Dear Mr. Tom,

I am writing on behalf of CBOAC to support and endorse Neville Pereira for the upcoming ICC Board of Director position. We have had the pleasure of knowing Neville for several years now, and I can confidently say that Neville possesses the necessary qualities and skills to excel in this Board of Director position.

Neville's ongoing service in the Building Industry is illustrated by a steadfast commitment to advancing the building safety profession and supporting the vital work of the International Code Council.

As the current President of CBOAC, I believe that it is essential to elect leaders who are committed to improving our community, and Neville Pereira is one such leader. Neville has demonstrated his commitment to public safety by working for several causes, and I believe he will continue to work tirelessly to make our national building scene a better place.

As a Professional Civil Engineer (CA C 55991), Certified Building Official, and certified technical specialist across multiple disciplines, Neville understands the crucial intersection of technical knowledge, regulatory compliance, and administrative leadership that the ICC Board requires.

I strongly urge you to consider Neville Pereira in the upcoming selection process. I am confident that he will make a positive impact and work towards the betterment of our national building safety values.

Thank you for your time and consideration.

Sincerely,
Robert Ivie
President, CBOAC
