

## PSCAA VAPOR RECOVERY SYSTEMS TESTING CONTENT OUTLINE

### EXAM ID: PT

- 60 multiple-choice questions
- 1-1/2-hour time limit
- Open book

| <u>Content Area and Task</u>  | <u>Approximate % of Questions</u> |
|---|-----------------------------------|
| <b>01. Vapor Recovery Systems Pre-installation</b>  | <b>12 %</b>                       |
| 101. <u>Licenses &amp; Certification</u><br>Obtain required permits, licenses, and certifications.  |                                   |
| 102. <u>Executive Orders</u><br>Comply with CARB Executive Orders.  |                                   |
| 103. <u>Manufacturer's Specifications</u><br>Read and follow manufacturer's installation specifications.  |                                   |
| 104. <u>Vapor Recovery System Identification</u><br>Identify vapor recovery systems and components.   |                                   |
| <b>02. Testing of Below Grade Vapor Recovery Components</b>   | <b>25 %</b>                       |
| 201. <u>Testing of Vapor Recovery Components</u><br>Test piping and components in accordance with manufacturer's specifications and Executive Orders.                                     |                                   |
| <b>03. Testing of Above Grade Vapor Recovery Components</b>   | <b>35 %</b>                       |
| 301. <u>Dispenser and Dispenser Vapor Piping</u><br>Test dispenser and dispenser vapor piping.  |                                   |
| 302. <u>Vacuum Assist Systems and Processors</u><br>Test vacuum assist systems, vacuum motors, and/or processor.  |                                   |
| 303. <u>Hanging Hardware</u><br>Test hanging hardware.  |                                   |
| 304. <u>Vent Risers and Pressure Vacuum Valve</u><br>Test vent risers and pressure vacuum valve.  |                                   |
| <b>04. Observation and Troubleshooting of Vapor Recovery System Components</b>  | <b>12 %</b>                       |
| 401. <u>Observation and Troubleshooting</u><br>Observe the equipment to determine or identify the source of the problem.  |                                   |
| <b>05. Safety</b>   | <b>10 %</b>                       |
| 501. <u>Leak and Spill Prevention</u><br>Use procedures to prevent spills and releases.   |                                   |
| 502. <u>Emergency Response</u><br>Identify the location of emergency shut-off switch, fire extinguishers, and fire suppression systems and use appropriate emergency response procedures. |                                   |
| 503. <u>Vapor and Sources of Ignition at Job Site</u><br>Identify and remove sources of ignition and maintain vapors at safe levels.  |                                   |
| 504. <u>Personal and Site Safety Equipment</u><br>Use necessary equipment such as eye protection, safety vests, caution tape, and other safety equipment.                                 |                                   |
| <b>06. Results, Record Keeping, and Reporting</b>   | <b>6 %</b>                        |
| 601. <u>Record Keeping</u><br>Complete and submit reports of testing results.   |                                   |
