Renewing your credential is critical. You are among a select group of individuals who have attained high credibility and recognition through the ICC Credentialing program. Renewing your credentials will allow you to retain this professional stature.

Renewing Your Credentials

Credentials are valid for three (3) years and must be renewed on or before the expiration date to remain current. Prior to the expiration date, a courtesy renewal notice will be sent to the contact information in your myICC account. If for any reason you do not receive this notice, you may obtain renewal information specific to your credential from www.iccsafe.org/renewals. *Note : You are responsible for renewing your credentials, whether or not you receive a renewal notice from ICC.*

Accruing CEUs

During the three (3) year period prior to the renewal processing date, you must accrue the number of continuing education units (CEUs) required for your certificate. Renewal is achieved by participating in continuing education and professional development activities. For example, a seminar you attended to earn CEUs must have been within the three (3) years prior to the renewal processing date (when the CEU becomes inactive).

You may renew your credentials at different times, but each renewal date is treated as a separate application. For example, if you have six credentials and renew two certifications on X date and four certifications on Y date, you must have 3.0 CEUs for X date and a 3.0 additional CEUs for Y date.

Note: You must keep documents and records of each activity during the three (3) year renewal period. CEU applications are subject to random audits. If proof of CEUs cannot be provided, the renewal will be voided and your certifications will revert to their previous status; renewal fees are not refundable.
