Why renewing your certification is critical:

You are among a select group of individuals nationwide who have attained high credibility and recognition through the Certification program. Renewing your certificates will allow you to retain this professional stature.

Certification renewal:

Certifications are valid for three years. Certificates must be renewed on or before the expiration date (when they become inactive) to be current. A few months prior to the time when your renewal is due, ICC will send a courtesy renewal notice to your last known address. If for any reason you do not receive this notice, you may obtain renewal information specific to your certification from the ICC website. Please note: you are responsible for renewing your certifications, whether or not you receive a renewal notice from ICC.

Accruing CEUs:

During the three-year period prior to the renewal application date, you must accrue the number of continuing education units (CEUs) required for your certificate. Renewal is achieved by participating in continuing education and professional development activities. For example, a seminar you attended to earn CEUs must have been within three years prior to the expiration date (when the CEU becomes inactive). You must keep documents and records of each activity during the three-year renewal period.
