...dedicated to professional unified code enforcement...

... and on the 8th day...

And on the 8th Day, God looked down on his planned paradise and He said,

“I need a caretaker.”

So God made a Code Official.

God Said, I need someone who is willing to get up before dawn, study the book, plan a schedule, Drive to the office or job site in the sleet and the snow. All to serve the public, with patience, respect and integrity.

So God made a Code Official.

He said I need someone with a strong will, initiative, level headed, motivated, trained, experienced and certified. Someone who will walk through the mud in the rain or work in the heat of the day, with a smile and firm handshake. To ensure the Homes, Businesses, School's and Churches, we all occupy are safe.

So God made a Code Official.

He said I need someone to process the application, review the plan, attend the late meetings, inspect the site and approve the footing, foundation, frame and final to completion. To process the report and file the paperwork with little recognition or praise.

So God made a Code Official.

He said, I need someone willing to work long hours, to develop the code, those who can brave the storm, boom or bust, with resiliency. Someone who is willing to assist the average citizen, contractor or design professional with prompt, courteous and efficient service, always going the extra mile.

So God made a Code Official.

God said, I need somebody, who is fair, honest and polite. Who will listen to the old, guide those who don't know and lend a helping Hand. Someone who will mentor the young, inspire the tired, volunteer for the task, participate, educate and proclaim “Building Safety”.

So My Friends, God made a Code Official.

Thank You for Your Service, Be Safe and God Bless!

Ron Hampton,

Adapted from the Original Speech “So God made a Farmer”1978 by the late great Paul Harvey. To Honor the dedicated members of the International Code Council “the people who help the people”.
