INTERNATIONAL CODE COUNCIL®

Technical Training Program

What is the TTP?

- The program, started in 2009, formally introduces students to the codes associated with their trades.
- Students receive a nationally-recognized, stackable and transferable Certificate of Completion from ICC upon completion of any of the six disciplines and passing a final exam.

The Code Council's Technical Training Program (TTP) is a flexible educational program divided into six disciplines:

BUILDING

MECHANICAL

ELECTRICAL

PLUMBING

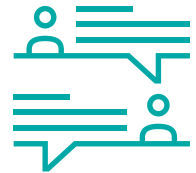

MASONRY

ENERGY

Why the TTP?

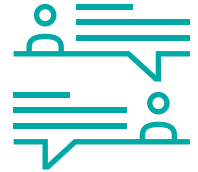

- The TTP enables a school to easily integrate one or more disciplines into current curriculum
- Students learn up-to-date code information and technical training that go hand-in-hand with practical training for the workplace
- The program includes the necessary course materials, exams and certificates to ensure easy implementation
- Students who earn a certificate of completion in all six disciplines will be better prepared for the Code Council's ICC National Residential Building Inspector Certification exam.

How to Get Started

- Learn about the program
- Request a quote or invoice if needed
- Become a Member of the Code Council (\$150)
- Once a member, receive discounts on IRC code books and IRC Study Companions and access to pertinent industry information and resources

TTP Costs

TTP Cost Overview	
Annual School ICC Membership	\$150.00
IRC Study Companion	\$48.50 (available in PDF for \$46.00)
Annual Student ICC Membership	\$25.00

TTP Costs

Example of Annual Cost to Operate TTP	
Annual School ICC Membership	\$150.00
25 Student Memberships @ \$25.00 each	\$625.00
25 IRC Study Companions @ \$48.50 each	\$1,212.50
Total Cost for first year of TTP	\$1,987.50
Reuse IRC Study Companions second year	-\$1,212.50
Total Annual Cost of TTP for second year	\$775.00

TTP Instructor Resources

- TTP Syllabus/Curriculum Outline
- TTP Online Portal
- Guide on how to introduce your students to the IRC
- Course Materials (IRC and IRC Study Companion)
- Exams for students upon completion of the course
- Students receive a nationally-recognized, stackable and transferable ICC Certificate of Completion (COC) upon passing a final exam for any of the six disciplines at the end of the course.

Student Benefits

- Access to TTP Online Portal content
- Gain code knowledge and exposure the International Codes
- Introduce dozens of career opportunities in the building safety realm
- Students receive a nationally-recognized, stackable and transferable ICC Certificate of Completion (COC) upon passing a final exam for any of the six disciplines at the end of the course
