The International Code Council Welcomes Lisa Reiheld to the PMG Team

Reiheld will serve as a subject matter expert on plumbing, mechanical, fuel gas, private sewage disposal system, and swimming pool and spa codes and standards.

Washington, D.C. – The International Code Council announced that Lisa Reiheld, joined the [PMG Technical Resources Team](#) as its Technical Resources Director for the Midwest Region. As part of her responsibilities, Reiheld will represent the Code Council in federal and state coalitions, task forces, committees and councils where expertise in the International Codes (I-Codes) is required.

“The Code Council’s PMG department plays a pivotal role in providing technical resources that designers, builders and regulators rely on,” said Code Council Chief Executive Officer Dominic Sims, CBO. “Lisa’s diverse experience and insight within the industry will greatly benefit our efforts to expand the use of the I-Codes.”

Reiheld brings extensive knowledge and expertise to the role, with over 20 years of experience in plumbing product certifications, design engineering and building codes. Prior to joining the Code Council, Reiheld was a Codes & Standards Manager for Viega LLC where she advised product design staff on code and standard requirements that impacted the development of new products, among other responsibilities. Reiheld also worked for the CSA Group as a Certification Engineer in the Plumbing Group providing education to code officials around the country on the process and meaning of certification marks.

“My previous experiences of providing education to authorities having jurisdiction (AHJ) organizations will greatly help our goal of increasing the Code Council’s PMG network and building lifelong relationships with current and future Code Council members,” said Reiheld. “I am excited to be working with new colleagues and alongside some familiar faces, who have helped make this transition to the new role both easy and enjoyable.”
