The International Code Council family of solutions to participate in the 2022 Design and Construction Week

The event will spotlight new products, welcome industry experts, and generate diverse networking opportunities

Washington, D.C. – Multiple organizations within the International Code Council family of solutions will be in attendance at the 2022 National Association of Home Builders (NAHB) International Builders' Show (IBS) and National Kitchen & Bath Association (NKBA) Kitchen and Bath Industry Show (KBIS) during the ninth annual Design and Construction Week (DCW) in Orlando, Florida.

“Design and Construction Week offers an unmatched opportunity to bring together many of the top industry professionals in the residential design and construction community,” said Code Council Chief Executive Officer Dominic Sims, CBO. “We are honored to return once again as a major sponsor and exhibitor and look forward to the event’s potential for industry innovation and collaboration.”

As a preferred sponsor of DCW, the Code Council and ICC-ES are running several activities during DCW that provide opportunities for participants to network and learn about the latest trends and technologies in the building industry:

- ICC-ES is exhibiting at IBS booth W5143 and KBIS booth S5032. Each booth will be staffed with a dedicated team of evaluation professionals.
- The ICC-ES team will be hosting several in-booth presentations to share how ICC-ES solutions can help manufacturers achieve their growth and innovation goals.
- ICC-ES is a sponsor of the Zonda Economic Outlook presentation which will be delivered at the Zonda booth W4771 on February 9 and February 10.

“ICC-ES is delighted to be at the forefront of building and kitchen innovation this year at IBS and KBIS,” said ICC-ES President Shahin Moinian, P.E. “We are looking forward to sharing some exciting news on the Code Council’s expanding plumbing product testing capabilities that will help shape future innovations in the industry.”

DCW is the largest annual gathering of the residential design and construction industry and consists of two shows, which will be running from February 8 to February 10, 2022. The shows will include exhibits, education, and networking through IBS, the largest annual light

construction show in the world, and KBIS, North America's largest trade show dedicated to all aspects of kitchen and bath design.
