**C. I-Codes –
ICC 300**

Proposal 1 – Move forward in code change process – 7-0-0

- Can we change Section 309.1 from ‘adjacent’ to ‘within 5 feet’ without going out for public comment to match F86-21?
- Add ‘complying with ICC 300’ in 2 and 3.

Proposal 2 - Move forward in code change process – Tabled till next meeting

- Looking at triggers to be in the IPMC for what is considered unsafe that are consistent with the ICC 300 requirements in Chapter 5 – structural, guards, openings between seat boards and footboards
- Ashley Brooks spoke about the importance of retrofitting openings between seat boards and footboards in bleachers to minimize the chance of children falling through the seats.
- There were questions about who would do the inspections and how retrofitting of the openings in guards and bleachers would be enforced.
- Ideas for revisions to be sent to Kim for next meeting.

Bill Elliot brought up a concern about special inspections. No proposals suggested for IBC Chapter 17 at this time. Adding this to ICC 300 at this time would be outside the scope of the proposals.

D. Proposals

- 1) Proposals are posted at [ICC 300 webpage](#)
