

CONSENSUS COMMITTEE ON SPRAY APPLIED FOAM PLASTIC INSULATION (IS-FPI)

Posted Date: April 2017

SCOPE:

International Code Council's new BSR/ICC 1100-2019, *Standard for Spray-Applied Polyurethane Foam Plastic Insulation* (new standard). Construction codes have requirements for thermal resistance of insulating materials but currently include limited material standards for certain types of insulating materials. The purpose is to develop a performance standard based upon existing ICC-ES Acceptance Criteria and related documents for spray-applied foam plastic insulation for use by industry and inclusion in construction codes.

MEMBERSHIP

Eric William Banks, VICE CHAIR

Principal – [U]
Director, Insulation Testing and Certification
Intertek Testing Services NA Inc.
Houston, TX

Jodi Thomas

Principal – [P]
Lead Building Code Compliance Specialist
The Dow Chemical Company
Midland, MI

Ben Caldwell, AIA, LEED AP BD+C, CSI

Principal – [U]
Architect/Specification Writer
Bjarke Ingels Group
New York City, NY 10005

Nanci Timmins

Principal – [G]
Chief Fire and Life Safety Officer
Office of Statewide Health Planning and
Development/Facilities Development Division
Los Angeles, CA

Randy R. Childers, CBO

Principal – [G]
Building Official
City of Waco, TX
Waco, TX

Brian Tollisen, PE, CHAIR

Principal – [G]
Deputy Director,
Division of Building Standards & Codes
NYS Department of State
Albany, NY

Monica Enamorado

Principal – [P]
Technical Service Specialist
BASF Corp
Houston, TX

STAFF LIAISON:

Steve Thorsell

Director, Environmental Programs
ICC Evaluation Service
4051 West Flossmoor
Country Club Hill, IL 60478
800/423-6587 ext. 4313
