2. ICC Standard Development Process & Policies:

An ICC webpage has been created for the [off-site construction](#) committees and public to view the latest news, meeting notices, meeting minutes and working documents for the public to view. Minutes are also posted to the committee OneDrive folder.

3. Discussion of public comments:

To recap: during the 3/19/25 meeting,

A motion was voted on as described below:

SMALL RESIDENTIAL UNIT (SRU). A dwelling that is 1200 square feet (111 m²) or less excluding lofts and is constructed as a permanent residential structure with or without a permanent chassis system.

TINY HOUSE. A SMALL RESIDENTIAL UNIT that is 400 square feet (37 m²) or less excluding lofts.

The committee voted 10-2 for the proposed definitions. The reason is for the definitions to be consistent with the purpose and scope of the standard. This scope and purpose do seem to be in conflict with the title. Staff is discussing amending the title of the standard to include SRUs. ANSI permits title changes to standards as long as changing the title is not a substantive change.

Under presumption of the approval of the aforementioned motion, a second motion as follows:

Motion to use the **sole** term “SRU” when referring to all dwellings covered by this standard and to use the term “Tiny House” when referring to only those dwellings covered by the standard that are 400 square feet or less excluding lofts, except for the usage of “Tiny House” already established in the Title of the Standard and Section 101.2 Scope, Definition and where specifically relevant.

Motion passed unanimous.

Unless otherwise noted, the order of discussion of the public input comments will be as per the matrix in the public input agenda. The comments under consideration were the result of a 30-day posting of the initial draft to solicit input from interested parties which concluded on Nov 15, 2024.

The public input agenda will reflect the committee action to date and will be posted to the committee OneDrive and committee webpage for public consumption. ICC is migrating to the SharePoint platform for file sharing in lieu of the current OneDrive platform. The migration has been completed and
