### **Code Council to Market Popular Titles from McGraw-Hill**

eCodes.biz, the International Code Council's comprehensive online information source for building and construction codes, has expanded its resource library with a range of online books published by McGraw-Hill Professional.

The redesigned, easier to navigate eCodes.biz site now offers more than 40 popular McGraw-Hill titles that discuss a range of topics from green to building information modeling, engineering, architecture, remodeling, codes and inspection, wood structures, electrical, seismic, plumbing and dictionaries. The books are available for purchase as pdf downloads to allow code officials, architects, engineers, contractors and other construction industry professionals to digitally "carry" publications with them to the jobsite.

Among the many benefits offered, eCodes.biz downloads allow users to view, search, copy, paste, and print book sections, and create customized, on-line libraries. For a list of titles and descriptions, go to [www.eCodes.biz/list](http://www.eCodes.biz/list).

The International Code Council, a membership association dedicated to building safety, fire prevention and green/sustainable construction, develops the codes used to construct residential and commercial buildings, including homes and schools. Most U.S. cities, counties and states choose the International Codes, building safety codes developed by the International Code Council.

McGraw-Hill Professional is a unit of McGraw-Hill Education, a leading global provider of print and digital instructional, assessment and reference solutions that empower professionals and students of all ages. McGraw-Hill Education, a division of The McGraw-Hill Companies (NYSE:MHP), has offices in 33 countries and publishes in more than 65 languages. Additional information is available at <http://www.mheducation.com/> and [www.mhprofessional.com](http://www.mhprofessional.com).
