- Whereas,* Lake Mary is committed to recognizing that our growth and strength depends on the safety and essential role of our homes, buildings and infrastructure, both in everyday life and when disasters strike; and
- Whereas,* our confidence in the resilience of these buildings that make up our community is achieved through the devotion of vigilant guardians, building safety and fire prevention officials, and others in the construction industry who work year-round to ensure the safe construction of buildings; and
- Whereas,* these guardians are dedicated members of the International Code Council, a nonprofit that brings together local, state, territorial, tribal and federal officials who are experts in the built environment to create and implement the highest-quality codes to protect us in the buildings where we live, learn, work and play; and
- Whereas,* "Built to Last" the theme for Building Safety Month 2026, encourages us all to get involved and raise awareness about building safety on a personal, local and global scale, and;
- Whereas,* each year, in observance of Building Safety Month, people all over the world are asked to consider the commitment to improve building safety, resilience and economic investment at home and in their communities, as well as acknowledge the essential services provided to all of us by local and state building departments, fire prevention bureaus, and federal agencies.
