What Claritin Does

Claritin is a non-drowsy antihistamine designed to provide fast relief from common allergy symptoms like sneezing, runny nose, itchy eyes, and congestion. Unlike other allergy medications, **Claritin** works quickly to block histamines, the substances that cause allergic reactions, without making you feel sleepy or sluggish. Whether you're dealing with seasonal allergies, hay fever, or year-round sensitivity, **Claritin** helps you breathe easier and get back to your day.

Who It's For

Claritin is perfect for anyone suffering from **allergy symptoms**, whether they're seasonal or triggered by pet dander, dust, or pollen. Safe for adults and children over the age of two, **Claritin** is a trusted solution for families looking for an effective and long-lasting allergy medication.
